Rajpal Nishad

Full Stack Developer · AI & LLM

rajpal010304@gmail.com | +91 9667326927 | New Delhi, India | linkedin.com/in/rajpalnishad | github.com/FoXDev-404

SUMMARY

Full Stack Developer and 2026 B.Tech CSE graduate with hands-on experience across React/Next.js, Python backends, and LLM integrations. Shipped a live esports tournament platform end to end, along with AI products for interview practice and ATS resume analysis. Comfortable owning a feature from database and API design through UI, testing, and deployment.

EXPERIENCE

CRIS — Centre for Railway Information Systems May 2025 – Jul 2025

Intern, Passenger Reservation System (PRS) · New Delhi

- Built and tested REST APIs for the Passenger Reservation System in a large-scale enterprise codebase.
- Worked with backend services and databases; debugged and maintained APIs across PRS modules.
- Gained exposure to production-grade development, testing, and release workflows.

IBM SkillBuild Jul 2025 – Aug 2025

Full Stack Development Intern · Remote

- Built responsive interfaces with HTML, CSS, and JavaScript, improving UI consistency across devices.
- Developed reusable React components and improved load time through targeted frontend fixes.
- Worked in an agile team, debugging issues and shipping frontend features in short cycles.

PROJECTS

BGMI Cup — Tournament Platform Oct 2026 – Present · **Live** · **GitHub**

Python · SQLite · Server-Sent Events · Railway

- Built and deployed an end-to-end tournament platform covering squad registration, admin approval, match scheduling, live scoring, and public results — currently powering CUP.26 (14 Nov 2026).
- Implemented a real-time match centre with Server-Sent Events and a polling fallback, plus 16 token-gated OBS broadcast overlays.
- Hardened the admin surface with CSRF-protected sessions, rate limiting, and audited scoring; verified with Python and Playwright test suites.

AI MockPrep — AI Interview & Resume Platform Feb 2026 – May 2026 · **Live** · **GitHub**

Next.js · TypeScript · Firebase · Gemini · VAPI

- Built an AI interview platform with text and voice sessions, dynamic question generation, and per-question scoring and feedback using Gemini.
- Added an ATS resume analyzer for PDF/DOCX files with keyword, semantic, and impact scoring, plus AI-generated bullet rewrites.
- Used Firebase Auth/Firestore for user data and Upstash Redis for API rate limiting; deployed on Vercel.

LLM Engineering — RAG & Tool-Calling Labs Jul 2026 – Aug 2026 · **GitHub**

Python · LangChain · ChromaDB · Gradio · Ollama

- Built a RAG pipeline over custom documents with LangChain and Chroma, exposed through a Gradio chat interface.
- Implemented an LLM tool-calling assistant and ran local Llama models via Ollama; completed weekly labs on prompting, multi-model chat, and code generation.

SKILLS

Languages: Python, JavaScript, TypeScript, C, C++, Java, SQL

Frontend: React, Next.js, HTML, CSS, Tailwind CSS, Responsive Design

Backend: Node.js, Express, REST APIs

Databases: SQLite, MongoDB, Firebase

AI/LLM: Gemini API, OpenAI API, LangChain, ChromaDB, RAG, Embeddings, Prompt Engineering, Tool Calling, Gradio, Ollama

Tools: Git, GitHub, Postman, Railway, Vercel, pytest, Playwright

EDUCATION

MGM College of Engineering & Technology, Noida 2022 – 2026

B.Tech, Computer Science & Engineering · CGPA: 7.0

CERTIFICATIONS

Python Training — IIT Bombay (NPTEL), Apr 2025

100 Days of Code: The Complete Python Pro Bootcamp — Udemy, Jul 2025
